

“Food Export Trade” LLC

“Production and Export Company “Food Export Trade”
Limited Liability Company

Further cooperation terms are coordinated within the framework of the Contractual Agreement signing:

1. Coordination of the nomenclature of agricultural crops for cultivation
2. Coordination of production sites where the producer plans to grow agricultural products
3. Coordination of prospective goods delivery volumes within the framework of contract farming for 5-10 years
4. Determination of the elevator warehouses list for product supply.
5. Familiarization with calculated price indicators.
6. Coordination of agrotechnical requirements for products and production programs for each cultivated crop, coordination of technological maps.
7. Coordination of product quality and safety requirements according to the quality management system standards, control measures for verification and methods for resolving situations related to the possible danger of agricultural products to consumer health or endangering buyer reputation
8. Coordination of the mandatory requirements for the test report content that is, the mandatory test results included in the test report, which is ordered and paid by the buyer in an accredited laboratory, which reflects the final indicators of the goods, and specifically for the purposes of determining of the bottom-line-cost of the goods.

Data contained in the test report must identify the lot of the test sample sent to the laboratory in a clear and most certain way.
